Chemists celebrate Earth Day  
across the world  
and kids just like you  
can join too.

Nano Mole recycles  
milk cartons, cans,  
paper, and more!

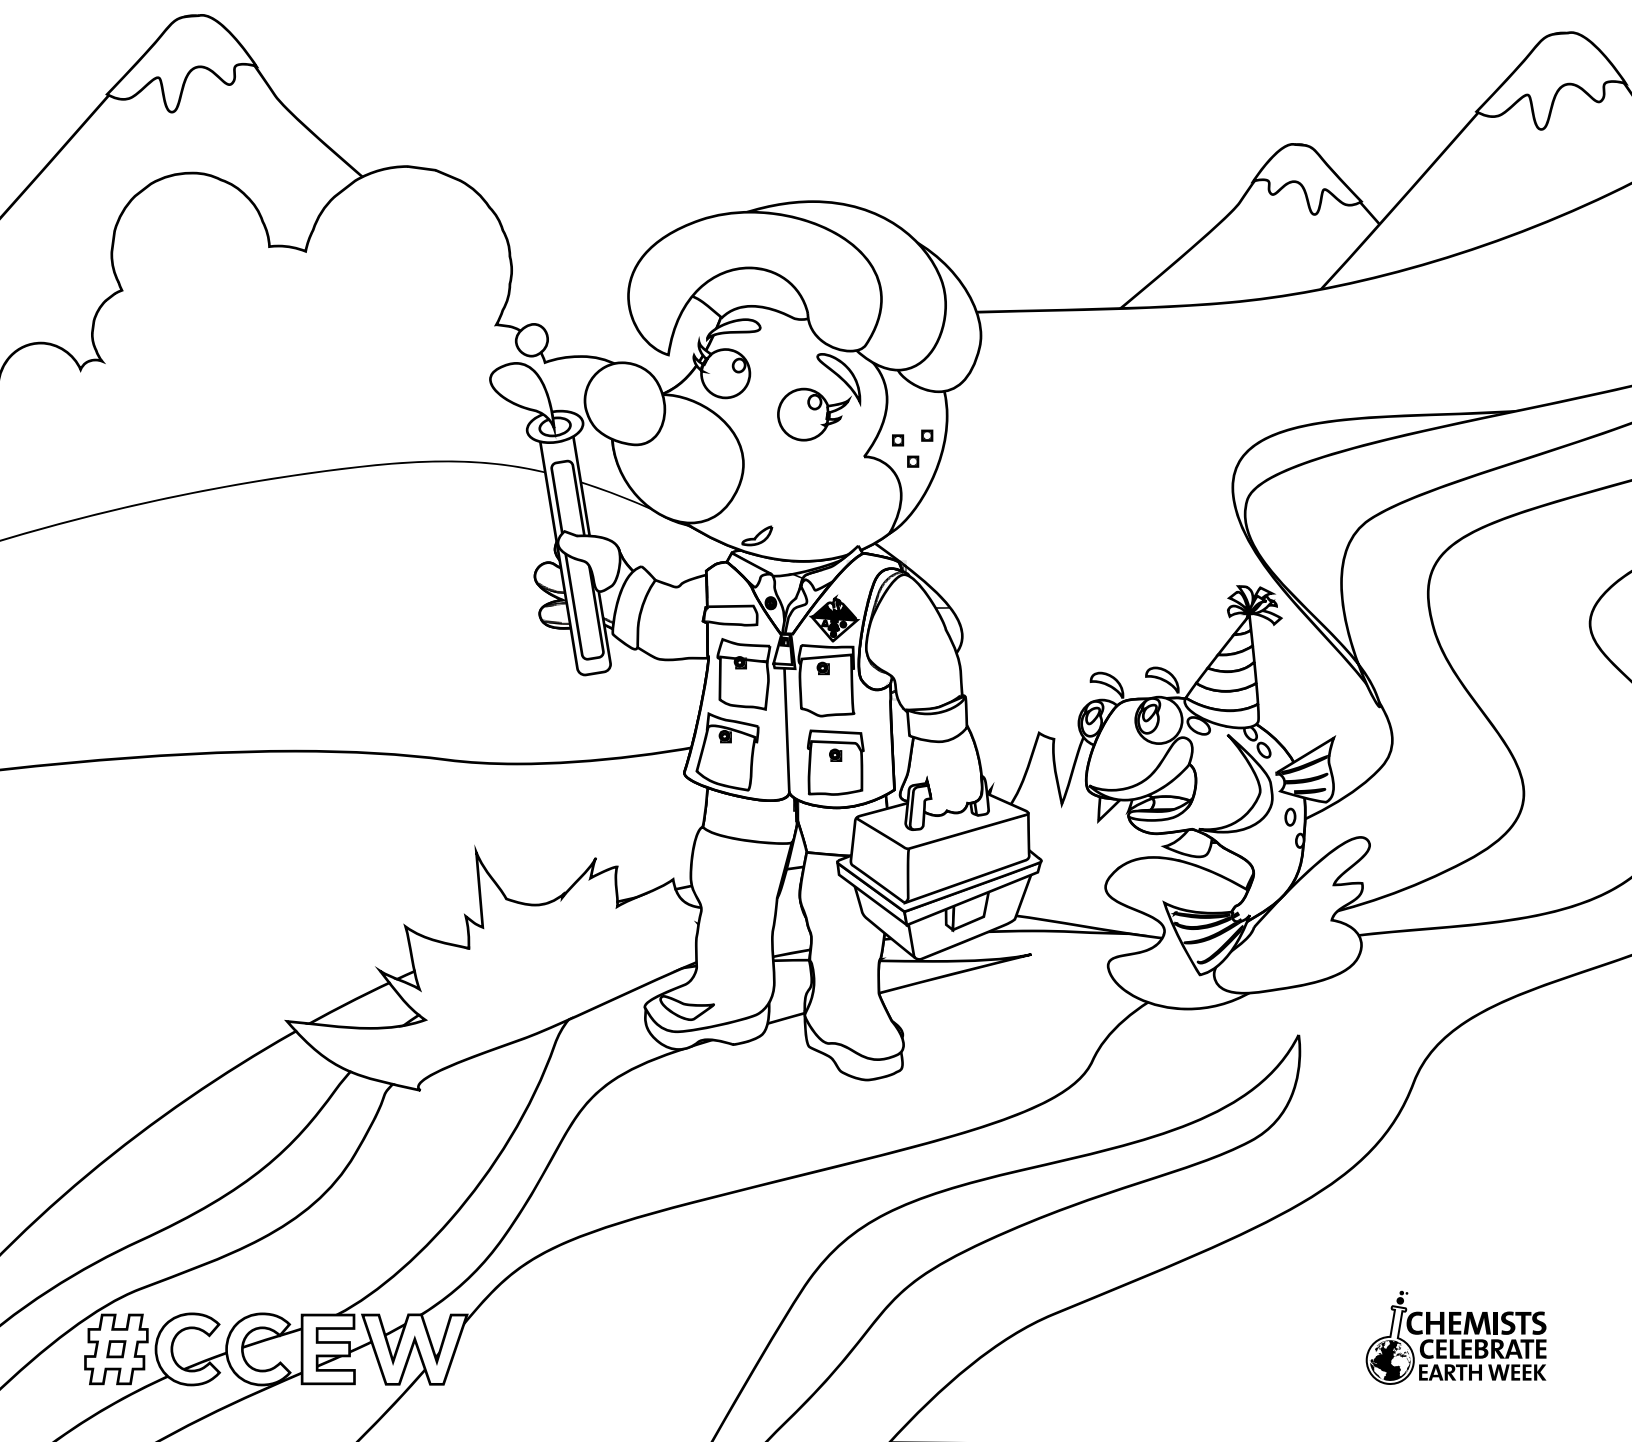

Meg A. Mole plants trees  
to provide humans and animals  
with the oxygen needed to breathe.

Pico Mole composts his kitchen  
food waste to create nutrients  
for his garden!

Dr. B. Green analyzes the quality of their local water supply using a testing kit.

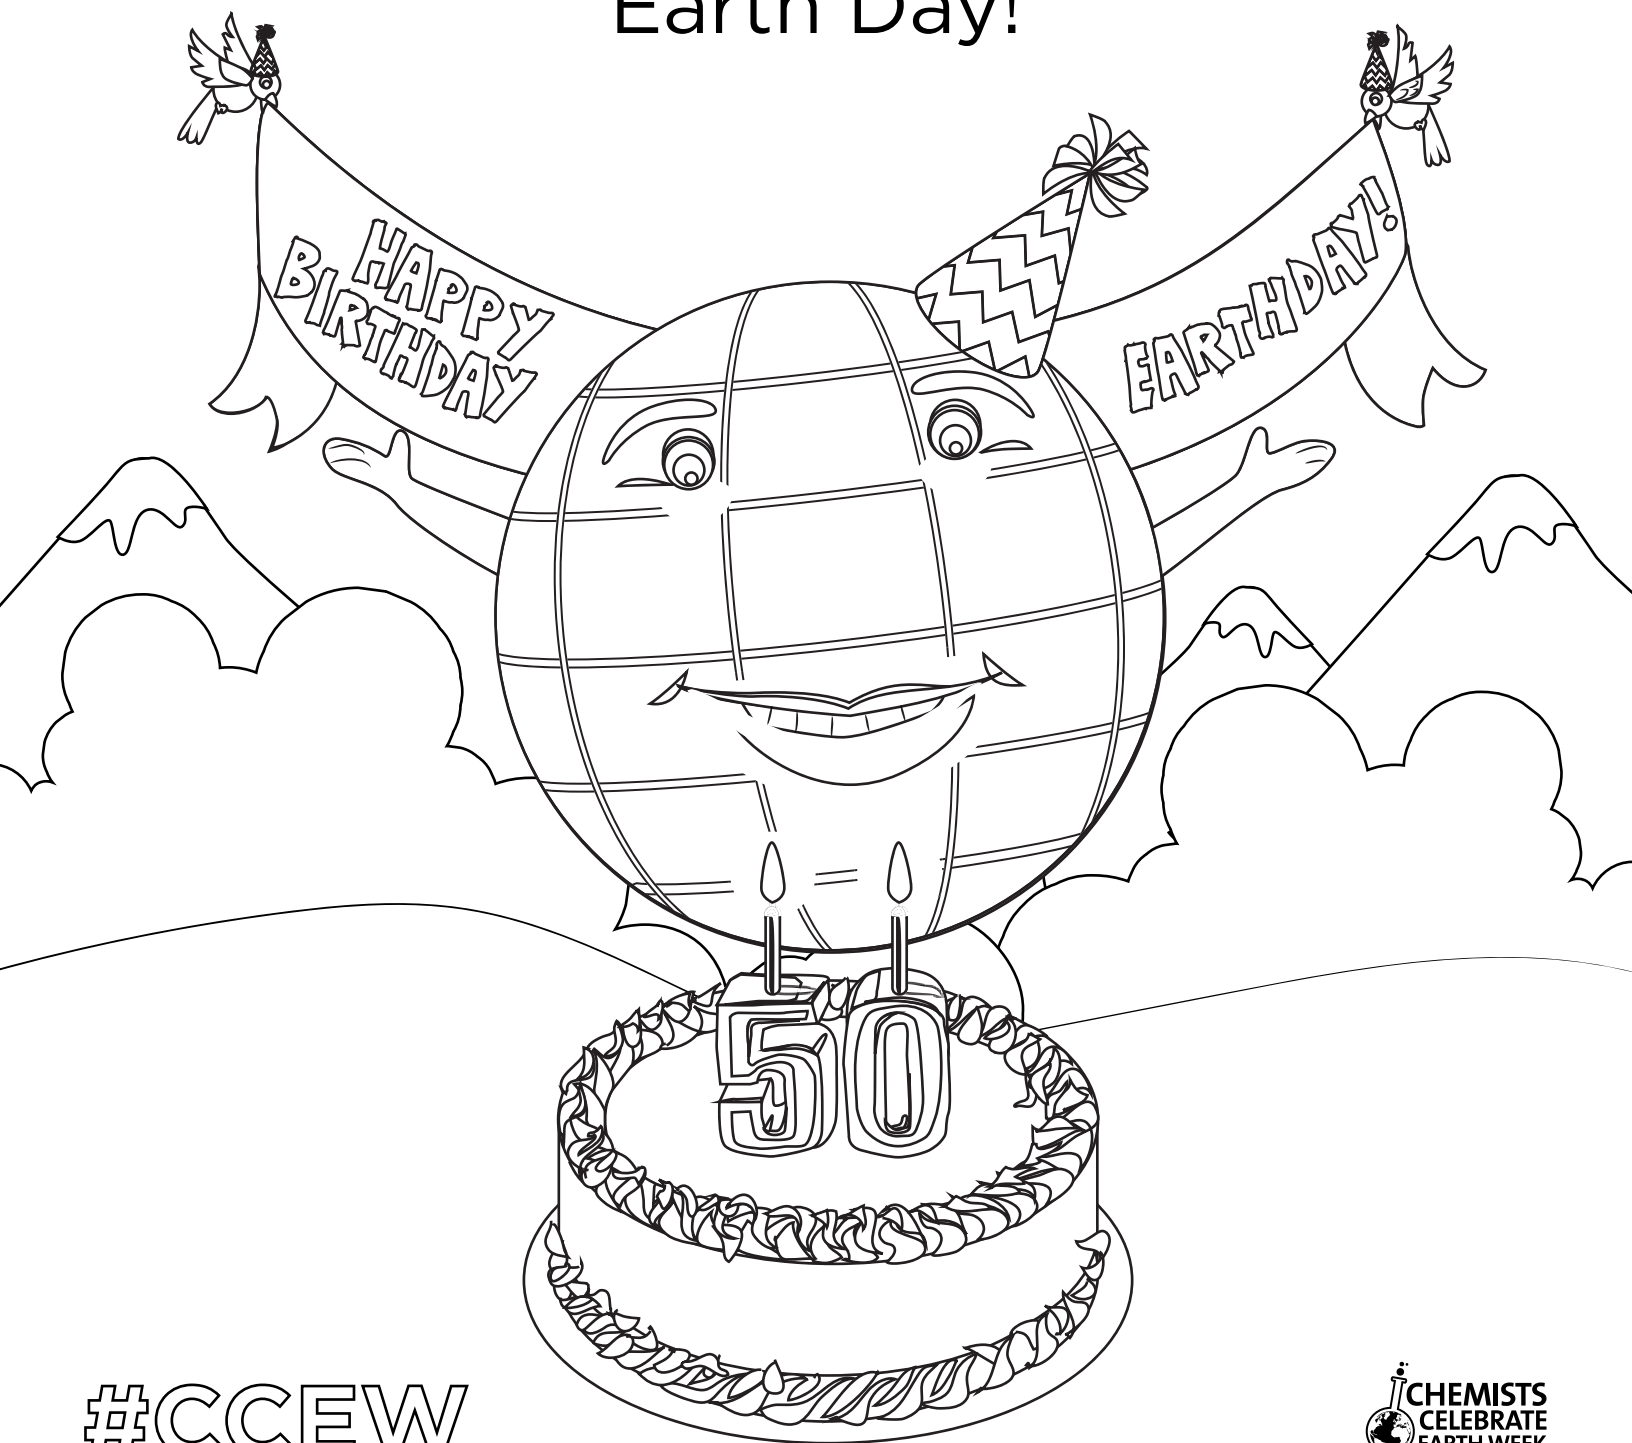

#CCEW

Uncle Sam advocates to protect  
the Earth at the Environmental  
Protection Agency (EPA).

Join the party.  
Happy birthday,  
Earth Day!
